(Source: Leipzig.travel/blog)

- Requirements** to create an attractive Innere Weberstraße:
- Space for young people to create meeting places, work areas and businesses etc. at a low cost
 - Communication of possibilities within Innere Weberstraße

Target group: Ambitious and creative young people with little or no capital but would like to make their ideas a reality

Definition: An application that connects building owners, potential users and the city management in order to utilize vacant buildings. Through the App, space is offered to young people to create meeting places, workshops and businesses etc. and gives building owners the opportunity to fill unused space

	City management	Building owner	Building user
Function	Provide APP	Provide space	Use the building
	Advertise APP	Set conditions of use	Create attractions for young people
	Mentor and support new businesses		
Advantages	Less vacant buildings	Maintenance of buildings	Start up at lower cost
	Increase economic activity	Potential rent income at later date	
	Increase tax revenue
